BIOGRAPHY

Shomari KRL (Konstantly Reaching Lives) is widely recognized as one of the Caribbean's most versatile and dynamic DJs and announcers. Now based in the U.S. by way of Trinidad & Tobago, he's known for delivering electrifying DJ sets, high-energy hosting, and engaging interviews—all fueled by a deep passion for music and entertainment. Whether on stage, on air, or online, Shomari connects effortlessly with audiences from all walks of life.

With over 18 years in entertainment, Shomari has brought his talent and versatility to stages and airwaves across the globe. He spent seven years at 96.1 WEFM (OJO World) in Trinidad, where he co-hosted The Hook Up—the country's #1 weekend morning show. He later hosted shows for the internationally streamed platform Team Soca, and is currently a contributor to music programming at GMGT Radio in New York City.

Under his legacy brand Redymix DMT, Shomari has headlined major Carnivals, festivals, and events across Canada, the U.S., Barbados, St. Vincent, St. Lucia, Dominica, and more. He remains a regular fixture at top-tier events in his home country of Trinidad. As the official Road DJ for YUMA, Fuzion Mas (St. Lucia), and Sunlime Mas (Toronto), he brings a signature blend of energy and professionalism to the road experience.

Shomari's passion for promoting Caribbean culture extends beyond the stage. He is the creative director behind "The Engine Room" an online platform that broadcasts live music events, primarily focused on soca and Caribbean genres. He's produced standout visual content for all his Carnival band clients, like the "784 Vincy Tour"—a 2015 documentary on St. Vincent's Carnival that still airs on regional TV, reflecting his deep commitment to the Caribbean Soca Ambassador movement. Finally, he has added podcasting and interviewing to his creative arsenal. Highlighted by the launching of his own show The Kreative Kollektive Podcast, where he engages in insightful conversations with influential figures in entertainment—further proving his ability to inspire, inform, and entertain across multiple platforms.
